M2 Droit de la santé et des biotechnologies

Master's degree

Specialisation Health law

Language(s) of instruction

French

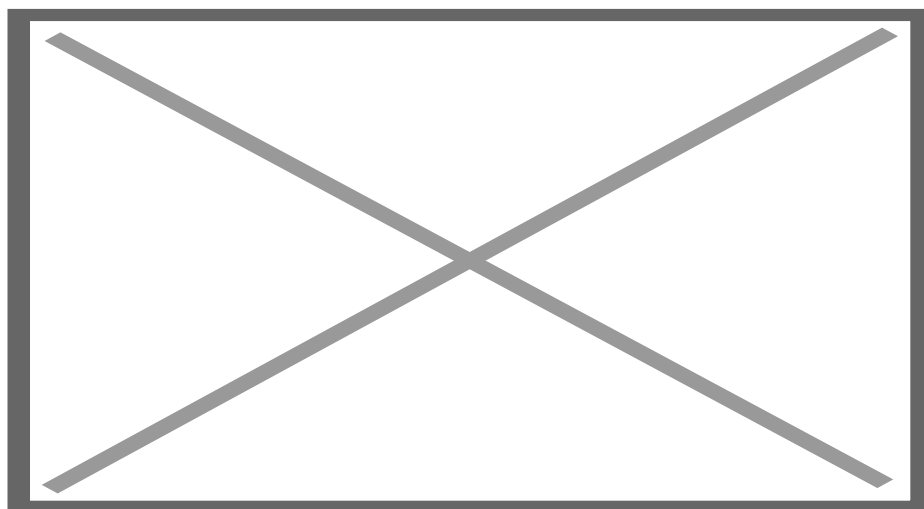

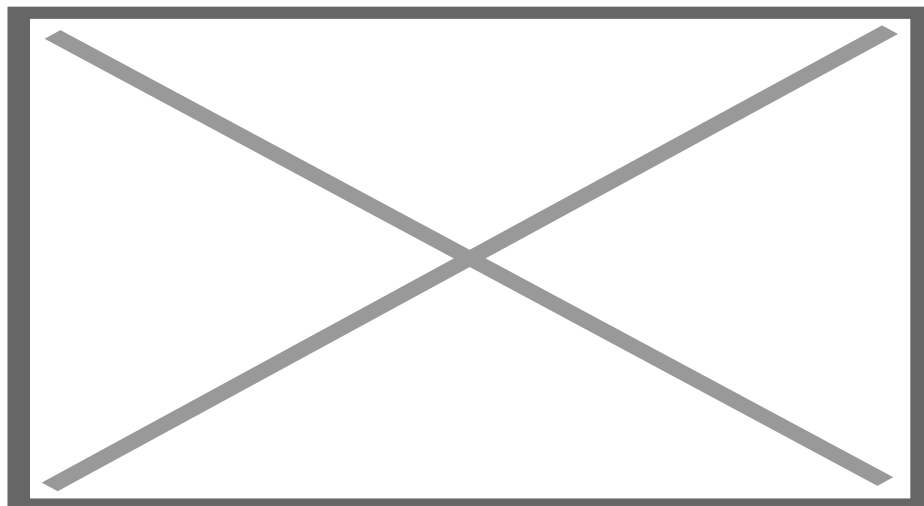

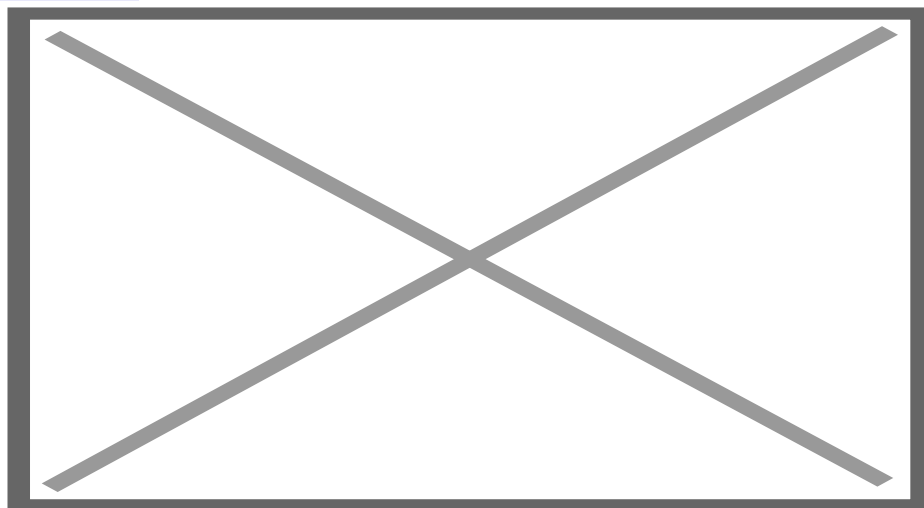

The Master's degree in Health and Biotechnology Law is organized at the Evry site and allows students to specialize with a view to quickly integrating into the world of health law. The Master's degree is open to

work-study programs and, in addition to the days reserved for theoretical and practical teaching, allows students to join a company with a mission related to the courses taken.

The Master 2 aims to give students the methodological and disciplinary skills essential for practicing professions in the health system and the pharmaceutical industry, and those linked to medical research, particularly in the field of biotechnologies, its financing and the valorization of its results.

Présentation

Skills

Master the guiding principles of health law (expert). Specialize in health-related sectors. Understand the healthcare professions environment in more depth. Act and apply a personal methodology to share knowledge.

Objectives

The M2 Health and Biotechnology Law is a specialized diploma based on three main areas: bioethics law (protection of individuals, ethical principles, legal corpus, general knowledge of biotechnologies) and health law (Medical Law, Hospital Law); the regulation of medical and biotechnological research (Contracts and research on living organisms, Protection of health data, Pharmaceutical Law) and its promotion (Biotechnology company law, Intellectual Property).

Débouchés

Career prospects

Lawyer

In the private sector: specialised lawyer (medical litigation, personal injury), executive in health law (companies, insurance companies, mutual insurance companies, contract production and claims departments), corporate lawyer in the pharmaceutical
Corporate lawyer or legal advisor specialising in the relevant fields
