Présentation

Objectives

Les compétences mises en œuvre dans le Master 2 Banque-Finance sont nombreuses. Elles donnent accès à des métiers à responsabilité, variés et évolutifs au sein du secteur financier. Les apprentis formés doivent être opérationnels, adaptables et avoir une vision globale des organisations financières. Pour cela, il est nécessaire de :

- dispenser des connaissances fondamentales,
- faire acquérir des méthodes de travail individuel et en équipe
- développer les qualités personnelles des apprentis (autonomie, initiative, responsabilité). La formation fournit aux apprentis des fondements académiques solides mais également un enseignement pratique leur permettant de relier l'expertise théorique aux applications opérationnelles. Cet équilibre dans les approches est permis par une équipe enseignante " mixte ", composée de professionnels de haut niveau

et d'universitaires spécialisés dans les domaines de la banque et de la finance. Les enseignements du M2 BF sont structurés autour de trois axes complémentaires : l'ingénierie et le diagnostic financiers, les instruments et les techniques de financement, la gestion bancaire. La formation s'effectue à la fois au sein de l'université et des entreprises : elle comporte des enseignements, des travaux de groupe et des travaux personnels.
