Présentation

Skills

Understand how to draw on statistical and econometric tools to solve complex problems.

Objectives

The primary aim of the degree is to provide, through the M1 followed by the four possible M2 courses, training which deals with the whole range of issues concerning energy, the environment and food in terms of economic factors and in an analytical and future-orientated manner. Graduates must have the skills to design strategies to address energy, environmental and agri-food challenges, particularly in relation to climate change, overexploitation of natural resources, water and air pollution, land use (food/bioenergy) and the

transition to a low-carbon world. They must be able to incorporate these strategies into the fields of production, services and consulting. They must also have the scientific knowledge to enable the most motivated to participate in both private and public research.

Target Audience and Entry Requirements

For an entry in M1, applicants must hold an undergraduate degree in economics (with advanced skills in microeconomics, mathematics, statistics); an undergraduate degree in mathematics, or mathematics and informatics applied to social sciences or management; or an undergraduate-level (Bac+3) qualification in science (physics, engineering, biology etc.) with a solid foundation in mathematics and statistics. A keen interest in environmental, energy or bio-economy issues is an important asset, as applicants who pass the first selection phase (based on their record) are interviewed about their motivation and skills.

Période(s) de candidature

Inception Platform

From 15/01/2026 to 16/03/2026

From 19/06/2026 to 25/06/2026

Supporting documents

Compulsory supporting documents

Copy of identity document.

Motivation letter.

All transcripts of the years / semesters validated since the high school diploma at the date of application.

Certificate of English level.

Curriculum Vitae.

Detailed description and hourly volume of courses taken since the beginning of the university program.

Additional supporting documents

Rank of previous year and size of the promotion.

Certificate of French (compulsory for non-French speakers).

Level B2 : Non native french speakers, a knowledge certificate issued by the French Embassy or a French language center. Students holding a French diploma or a diploma instructed in French are exempt from that obligation.

VAP file (obligatory for all persons requesting a valuation of the assets to enter the diploma).

Supporting documents :

- Residence permit stating the country of residence of the first country
- Or receipt of request stating the country of first asylum
- Or document from the UNHCR granting refugee status
- Or receipt of refugee status request delivered in France
- Or residence permit stating the refugee status delivered in France
- Or document stating subsidiary protection in France or abroad
- Or document stating temporary protection in France or abroad.
