Présentation

Objectives

Le niveau scientifique de cette formation se veut soutenu, ambitieux et d'excellence.Les objectifs de formation sont à la fois scientifiques et pédagogiques :-Offrir une formation généraliste solide avec une perception large et transversale en chimie et également en physique et un très haut niveau scientifique : le contenu scientifique est en adéquation avec le champ disciplinaire du concours de l'agrégation.-Offrir une formation professionnelle permettant aux futurs lauréats d'enseigner, d'associer connaissances théoriques et pratiques, mais aussi de proposer des innovations pédagogiques, de proposer des transversalités entre champs disciplinaires, et de coordonner des actions pluridisciplinairesCette formation constitue également un premier contact avec le métier d'Enseignant : de nombreuses séances sont consacrées à la simulation de leçons et/ou d'expériences, devant un public. Des capacités spécifiques sont développées (conception, réalisation et présentation d'expériences, exposés scientifiques…)
