M2 Economics and Evaluation of Development and Sustainability (EEDS)

Master's degree
Specialisation Economie politique et institutions
Enrolment type
Formation initiale
Language(s) of instruction
English
French

The EEDS study path trains students in economic analysis and evaluation in the fields of development, the environment and sustainable development. Our students master the specific features of macroeconomic policies (monetary, budgetary, external), public policies (supply of public goods, management of externalities, etc.) and collective decision-making processes in developing countries (emerging or fragile states).

Limited-capacity and selective Master's programme (15 in 2nd year Master's) Full-time academic programme or continuing training provided on a continuous basis 100% by lecturers, and a high proportion of teachers from the professional world Integration days, personalised mid-course assessment, tutored project, conference-visits with professionals, participatory workshops in class. Master's degree endorsed by the Unité Mixte Internationale (UVSQ and IRD, Côte d'Ivoire, Madagascar and Senegal) Soutenabilité et Résiliences (UMI SOURCE), offering opportunities for all students looking to do fieldwork in the countries where the UMI is present. Agreement with the Conseil Général des Yvelines Active participation by the teaching team of the 2nd year Master's EEDS in research networks (CIRAD, GIS-GEMDEV, Association Française d'Economie Politique, Association Tiers Monde, etc.) gives students the opportunity to forge scientific contacts. 6-month internship or research dissertation

Présentation

Skills

Argue, defend and produce a presentation on the evaluation and economic analysis of development, the environment and sustainable development (taking into account the viewpoints of geographers, sociologists, historians, jurists or specialists in political science and international relations). Analyse and evaluate economic activity in fields related to development, the environment and sustainable development, drawing on the tools of analysis and evaluation from a critical perspective, taking into account the political context (*political economy*), in different territoriies. Design and implement an in-depth economic diagnosis in the fields of development, the environment and sustainable development, at different scales (macroeconomic, mesoeconomic and microeconomic), incorporating vulnerability factors, stakeholder strategies, and levels of inequality and poverty Design, construct and analyse decision-making tools, in particular indicators of development, the environment and sustainable development, taking into account the historical and geographical characteristics of markets, organisations and societies. Organise and lead work in groups, draw

on professional and academic networks.

Objectives

The 2nd year Master's EEDS allows students to acquire the necessary competencies to pursue a PhD, or to enter the job market. The analyses presented, the case studies and role-playing exercises, which draw on approaches from the political economy of development, take into account the importance of context in analysing, and breaking down into different scales, hotly-debated issues with major political stakes, such as the Sustainable Development Goals, pro-poor growth and participatory processes, multi-criteria management of the environment and natural resources, and environmental regulatory instruments.

Calendar

Start of programme (indicative date)
07/09/2026
End of programme (indicative date)
30/09/2027
Admission

Capacity

Available Places

15

Target Audience and Entry Requirements

Multidisciplinary recruitment (economics, geography and planning, tourism, environmental sciences and sustainable development, urban planning, Social Econonomic Administration, sociology, law, Earth and Life Sciences, Sports Science, etc.).

Période(s) de candidature

Inception Platform

From 01/03/2026 to 25/07/2026

From 24/08/2026 to 05/09/2026

Supporting documents

Compulsory supporting documents

Copy of identity document.

Additional supporting documents

Research project.

Professional project.

Certificate of French (compulsory for non-French speakers).
