Présentation

Objectives

The goal of the M2R program is to apply and build upon the methodological knowledge acquired during the M1 program and to develop the specific approaches and methods required for conducting research in the fields of methodology, epidemiology, clinical research, and the organization of healthcare systems (M2R) Upon completion of the program, students should be able to define a research question and its relevance, design a strategy and study protocol to address this question, conduct the analysis (quantitative statistical analysis of data or qualitative analysis of interviews) necessary to answer this question, use appropriate tools and methods, and write a scientific article. The program is full-time with possible accommodations. Theoretical instruction is primarily delivered in person from mid-September through January. A full-time internship at a research institution accredited by the M2R Academic Committee constitutes the sole course unit for the second semester, with thesis preparation and defense generally taking place in June (late September with special permission). Three M2 tracks are available:
• Epidemiology
• Clinical Research
• Healthcare Organization and Health Systems The M2R has close ties with the Paris Saclay Public Health Doctoral School. Teaching Locations Mainly at the Paris-Saclay Faculty of Medicine (Le Kremlin-Bicêtre). Occasionally at Paul Brousse Hospital in Villejuif.

Admission

Capacity

Available Places

40

Target Audience and Entry Requirements

Être titulaire d'un M1 ou formation jugée équivalente dans les disciplines correspondant à l’option choisie, notamment :
• Santé Publique (certaines UE requises selon les options demandées)
• Mathématiques, Mathématiques Appliquées aux Sciences Sociales, Sciences et Techniques
• Dernière année École d'ingénieur, ENSAI, ENSAE, Agro, ISUP, ENGREF
• Sciences Économiques et SocialesAppétence pour la méthodologie, aisance dans les UE obligatoires du M1

Période(s) de candidature

Inception Platform

From 08/05/2026 to 05/07/2026

Supporting documents

Compulsory supporting documents

Choice sheet of options requested for the M2R.

téléchargeable ici: https://cirrus.universite-paris-saclay.fr/s/WwRAAbgB4yLFscM

Motivation letter.

All transcripts of the years / semesters validated since the high school diploma at the date of application.

Curriculum Vitae.

Detailed description and hourly volume of courses taken since the beginning of the university program.

Additional supporting documents

Attestations and notes from other trainings related to public health.

Other diplomas.

Internship proposal.

Title of stage and research laboratory, if already found

Titre de séjour en cours de validité autorisant à travailler (obligatoire pour les candidats hors Union européenne).

VAP file (obligatory for all persons requesting a valuation of the assets to enter the diploma).

Document indicating the list of local M2 choices available here : https://urlz.fr/i3Lo.

Supporting documents :
- Residence permit stating the country of residence of the first country
- Or receipt of request stating the country of first asylum
- Or document from the UNHCR granting refugee status
- Or receipt of refugee status request delivered in France
- Or residence permit stating the refugee status delivered in France
- Or document stating subsidiary protection in France or abroad
- Or document stating temporary protection in France or abroad.
