Présentation

Objectives

This career and research path is based on theoretical knowledge and trains network and telecoms architect engineers and PhDs whose role will be to design and model the architectures and security systems to be implemented in companies. This course is offered on an initial and sandwich/apprenticeship basis, in collaboration with companies representing operators, key accounts, service companies and research laboratories. The course is also open to the business world through continuing education.

Calendar

Start of programme (indicative date)
06/09/2026
End of programme (indicative date)
31/08/2027
Admission

Admission Route

Computer Science

Capacity

Available Places

64

Target Audience and Entry Requirements

L3 in computer science or equivalent

Période(s) de candidature

Inception Platform

From 15/01/2026 to 16/03/2026

MonMaster Platform

From February 17th to March 16th, 2026

To find out which platform you should apply through, please see the Masters' applications and enrolment page.
