M1 Finance - Sceaux campus

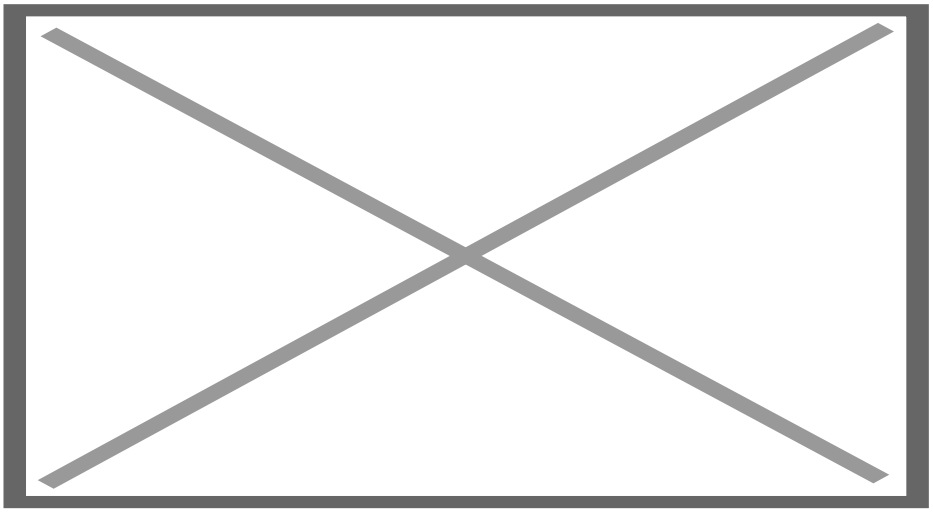

Master's degree
Specialisation Finance
Enrolment type
Formation initiale
Language(s) of instruction
English
French

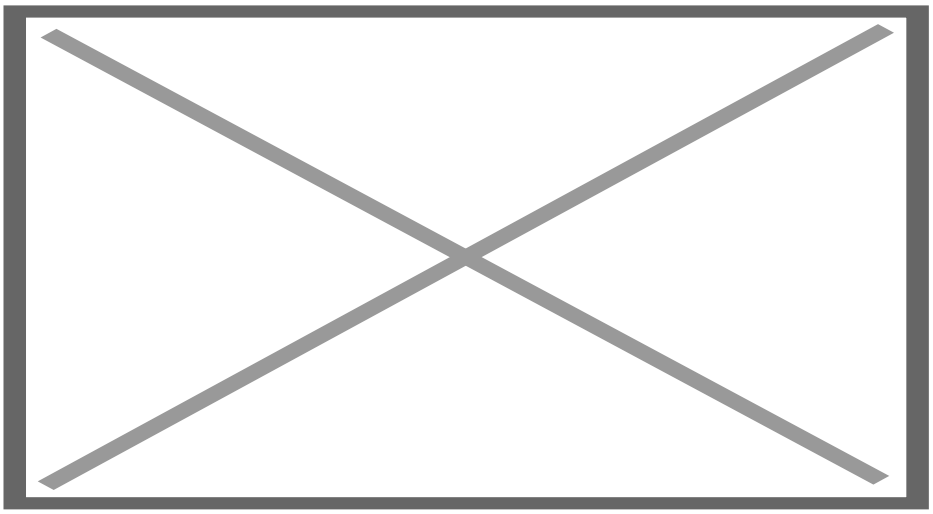

The Master of Finance trains professionals to work in all the major finance professions, thanks to a dual approach to economics and management.

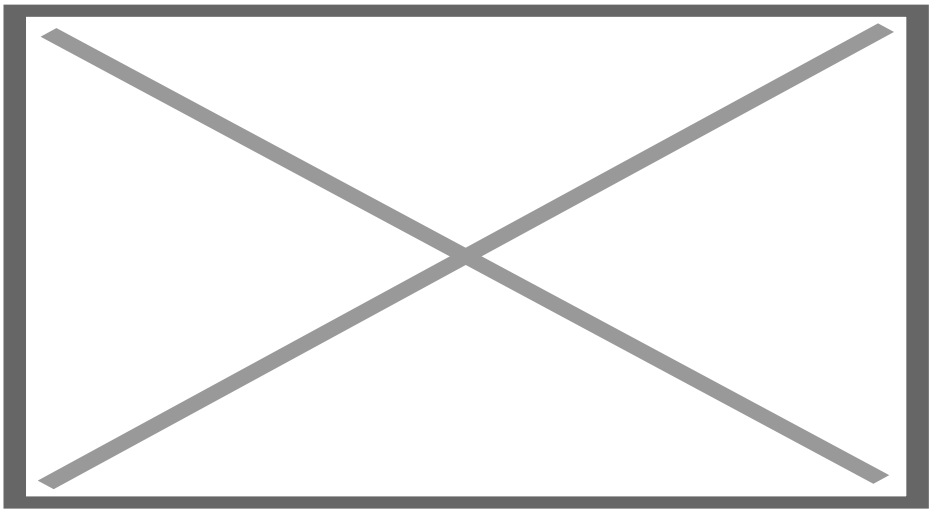

In the 1st year Master's, students acquire the essential tools, key concepts and analytical methods of corporate and market finance. The 2nd year Master's offers three courses of specialisation, depending on students' professional projects.

Présentation

Skills

Understand and measure the risks to which banks are exposed.

Objectives

The Master of Finance provides students with operational competencies, based on a cross-disciplinary foundation of economics and management, leading to mastery of quantitative techniques and an understanding of the economic environment of finance. At the end of their curriculum, students are competent in the specialised professions covered by the programme, and able to grasp the complexity of processes in the financial sector. The proposed curriculum is reinforced by innovative teaching tools, support from lecturers active in their host laboratories and professional contributors from the financial sector, and by complementary certifications drawn up with a view to careers. Target Audience and Entry Requirements

To enter the Finance track, students must have undergraduate degree level, and have taken courses in economics, management, finance and statistics as part of their previous curriculum. Undergraduate degrees in economics, management, economics-management and economics-mathematics naturally prepare students for the Master of Finance, which is also open to other student profiles motivated to acquire ambitious training in finance-related professions.

Période(s) de candidature

Inception Platform
