M1 Multi-level public policies

Master's degree
Specialisation Political Science
Enrolment type
Formation initiale
Language(s) of instruction
English
French

This Master's 1 program offers specialized training in the management and understanding of public action at various levels (from local to international), with an emphasis on territorial policies, European and international policies, security policies, and cultural policies. It is part of a dual degree program with a master's degree from Sciences Po, awarded by Sciences Po Saint-Germain-en-Laye, where the courses are held.

The Master 1 in Multi-Level Public Policy is organized around four elements:

-common courses on ecological transition and administrative transformation

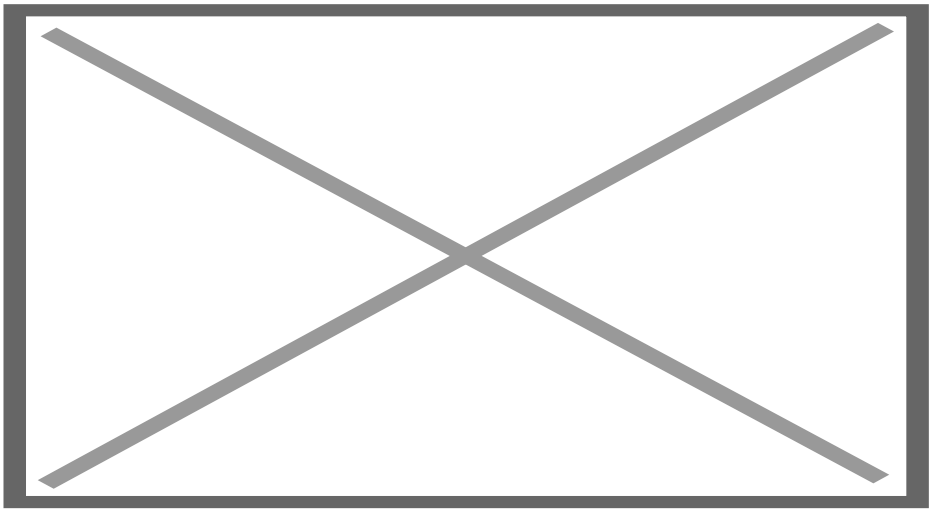

-specialized courses (four specializations are offered: public and regional affairs, European and international policy, arts and cultural policy, security and intelligence)

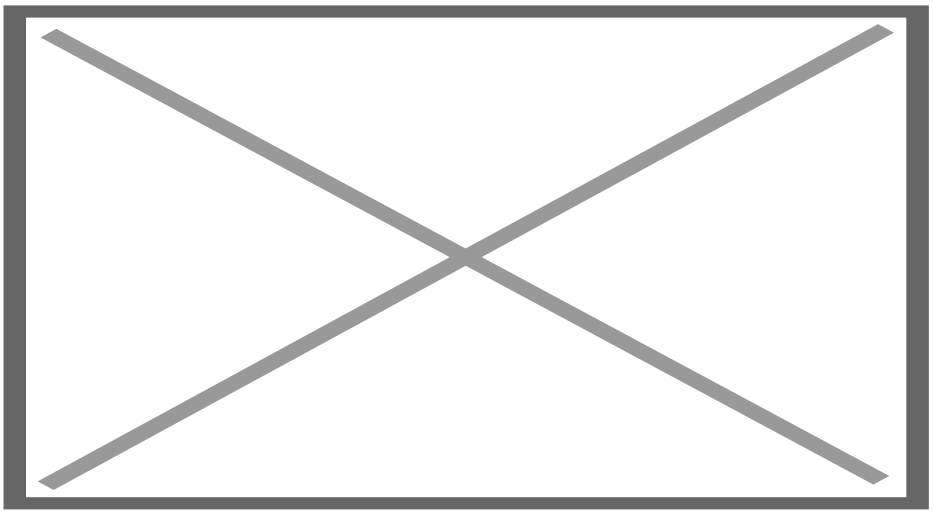

-research training enabling students to acquire methodological and analytical tools for understanding current public policies

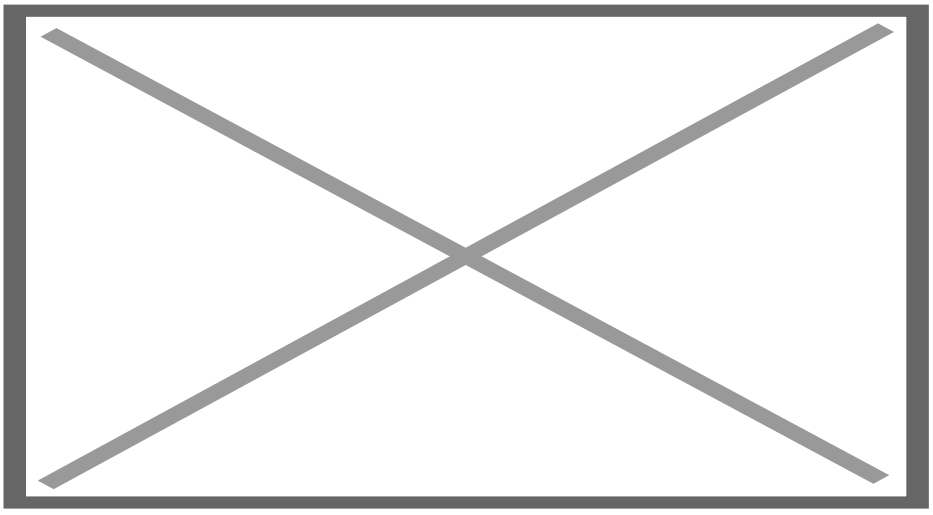

-language courses (two modern languages are compulsory).

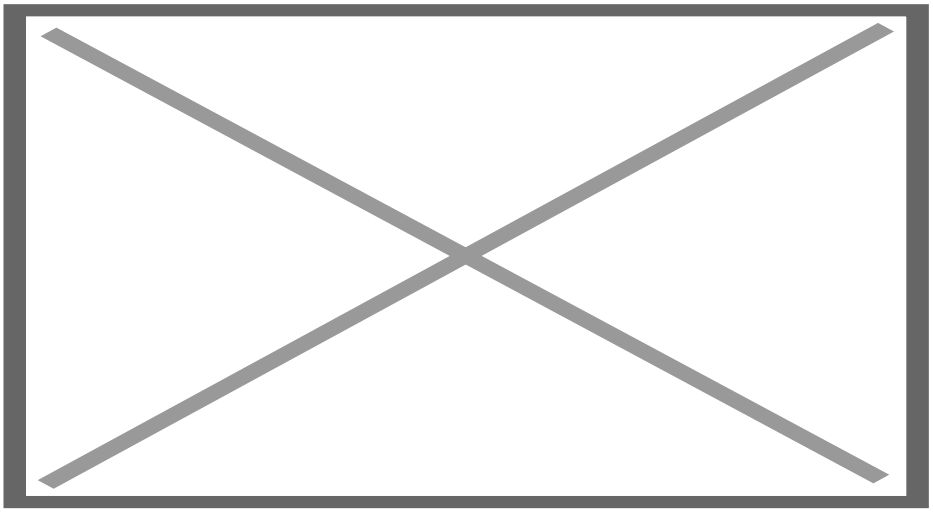

This Master's 1 program is divided into two balanced semesters (8 weeks of classes).

Présentation

Skills

- Use national and international historical and socio-political knowledge to understand the dynamics of public and political space.
- Understand local, national, and European legislative and regulatory processes.
- Master the functioning of administrations and local, national, European, and international public policy mechanisms.
- Analyze the emergence of public issues and support their management
- Identify the actors involved in public policies
- Assess the challenges and risks involved in public choices and/or public decision-making
- Deploy communication, facilitation, mobilization, and public negotiation techniques

- Design targeted lobbying and advocacy actions with local, national, European, and international public institutions

Objectives

The objective of the Master 1 in Multi-Level Public Policy is to offer training in political science related to the governance of public policies at different levels , more specifically around five main themes corresponding to specialized Master 2 courses within the political science program, with multiple career opportunities: public affairs, territorial policies, European and international policies, security and intelligence policies, and artistic and cultural policies.

This Master's 1 program trains experts who are open to the main challenges of current public policies at the various levels at which they are defined, developed, adopted, and implemented (from local to international).

Débouchés
