

Nationals or residents of a member country of the UE, Iceland, Liechtenstein, Norway or Switzerland

Enrollment to the Social Security center of your place of residence in France

You need to send the following documents when asking for your first reimbursement (*"feuille de soins"*)

- A photocopy of your European Health Insurance Card (EHIC) and/or of the S1 form;
- A photocopy of your student card;
- Address of your place of residence in France and in your country of origin (write them down on the photocopy of your EHIC);
- A photocopy of your ID document (passport or ID card);
- Your bank account details (RIB). **Please note that you must have a bank account in France and you must be the holder of said account. If this is not the case you may send the bank account details of another person with a written authorization for the transfer of your reimbursements.**

A certificate of enrollment specifying your social security number will be sent to you by mail. For further reimbursements you will have to write down your social security number (starting with 6 or 7) in the corresponding box of your *"feuilles de soins"*. If you wish to know what a *"feuille de soins"* looks like, see the section "Reimbursement of medical expenses" on our website.

Reimbursement of your medical expenses

- Send the *"feuille de soins"* and the corresponding prescription(s) to the international relations department of the social security center of your place of residence. You must send the originals. Make photocopies of everything you send and keep them with you until you have been reimbursed.
- If you live in Paris, you will receive, along with your certificate of enrollment, another address for your next reimbursement requests.
- In the event of hospitalization, you will have to present your EHIC card directly. Normally, you should not need to go through this process.

Address of the social security center of your place of residence
