HOW TO LEARN FRENCH ONLINE

• DELTA
  DELTA is a platform for students which offers online resources to help you learn French. You may decide to work on your own or to be coached by a teacher via a Q&A game and "web forms". To access the web forms, all you need to have is an email account in one of the constituent faculties and institutes, component institutions or associate institutions or to be invited to attend French as a Foreign Language (FLE - Français Langue Etrangère) classes by an academic.

  To access the tools and other online spaces designed to help you improve your level in French, understand life in France through its culture, and learn how to live and work in an academic environment in France, go to Ressources Langues et cultures

• MOOC: study in France
  To get to know the French higher education system, culture in France and your academic environment, you can attend the Study in France MOOC: French Intermediate course B1-B2.

UNDERSTANDING FRENCH CULTURE

Beyond procedures and administration, understanding a new environment can be difficult: a new language, new communication modes, new habits… To go further and learn more about French culture, go to “comprendre la culture française”

INTEGRATION
