# Formation et activités doctorales complémentaires à l'ED PHENIICS

Training and complementary doctoral activities at

**ED PHENIICS** 

David VERNEY
Directeur adjoint de l'ED PHENIICS
ED PHENIICS deputy director

### Text of the law

O/ Doctoral training is governed by a series of official texts stemming from the law.

1/ The internal regulations for doctoral studies at the University of Paris-Saclay, adopted in October 2020, provide the main guidelines for its implementation within the University Paris Saclay.

2/ The internal regulations of ED PHENIICS specify the concrete implementation within the ED

Doctoral training at PHENIICS Doctoral School:

new rules applicable from the start of the 2021-2022 academic year

From the beginning of the 2021 academic year, the University of Paris-Saclay will propose a new system of validation of doctoral training based on a points system, and it will be up to each Doctoral School (ED) to apply the Paris-Saclay framework according to its own disciplinary or other specificities. In this new system, the PhD student must acquire between 20 and 30 training points during his or her thesis. divided into the following three main categories:

#### universite PARIS-SACLAY

Règlement intérieur des études doctorales de l'Université Paris-Saclay

ADOPTE SUR PROPOSITION DE L'ASSEMBLEE DES DIRECTEURS ET DIRECTRICES DES ECOLES DOCTORALES ET APRES AVIS DU CONSEIL DE LA POLITIQUE DOCTORALE (VOTE ELECTRONIQUE DU 29/09/2020 AU 01/10/2020) ET APRES APPROBATION À L'UNANIMITE DE LA COMMISSION DE LA RECHERCHE DU CONSEIL ACADEMIQUE (LE 21/10/2020)

## Training and complementary doctoral activities: the PHENIICS requirements

you must acquire **25 training points** over the whole duration of your thesis, divided into the following three main categories :

- Training directly related to your thesis work (6-15 pts).
- Training designed to broaden your scientific culture (6-15 pts).
- Training related to your future professional insertion either in the academic (or more generally in the public sector) or in the private sector (6-15 pts).

A general equivalence is also proposed: 1 point  $\leftrightarrow$  5h of training.

## Training and complementary doctoral activities: the PHENIICS requirements

Cours ED ou Master	2 pts forfaitaires + 1 pt/5h	
Manifestations scientifiques à vocation pédagogique (écoles d'été, workshops de spécialisation etc)		
Représentants étudiants dans les instances (conseil ED, labo, GS, fac)	1 mandat d'une année = 2 pts	
Participation à des jurys, évaluations (ex : concours de l'ED)	1 pt/journée (max 3 pts)	
Engagement dans une association étudiante (ex: D2I2)	1 pt/mandat d'un an (max 2 pts)	
Organisation manifestation scientifique	PHENIICS Fest = 5 pts Autre : 1 pt/ journée de conf. + 1 pt forfaitaire si présentiel	
Encadrement de stagiaires	Forfait 3 pts	
Mission d'enseignement	Prise en compte des formations suivies : 1 pt/demi-journée (max 5 pts) Prise en compte des heures d'enseignement : 5h ETD = 1 pt (max 7 pts)	
Mission de médiation scientifique (ex : Palais de la Découverte)	Prise en compte des formations suivies : 1 pt/demi-journée (max 5 pts) Prise en compte des jours : pts = jours activité/4 (max 5 pts)	
Autres	Appréciation des référents.	

table extracted from the ED PHENIICS internal regulation text (that you and your supervisor signed)

- Warning: additional training is not an option, it is mandatory!
   Under no circumstances and under no pretext can your supervisor prevent you from taking this additional training.
- ➤ You should establish a clear training plan as soon as possible and discuss it with your supervisor.
- ➤ If you have any problems, do not hesitate to contact your ED advisor!

this correspondence table has been elaborated with the help of the doctoral students' representatives to the doctoral school council

## 2022-23 PHENIICS scientific lect

to be announced soon: computer refresher course by D. Chamont et al.

PHENIICS Courses	Teacher	<b>Date</b> usually: 15 h, 3h/day during one week
Where do we stand in nuclear structure theory?	Jean-Paul EBRAN (CEA Bruyères- le-Châtel)	S1 2023
Cosmology of the dark universe: NEW NEW	Yann Mambrini (IJCLab) & Thibaut Louis (IJCLab)	S2 2022
Quarkonium Production	Jean-Philippe Lansberg (IJCLab)	S1 2023
Formation Geant 4	Laurent Garnier (IRISA), Ivana Hrivnacova (IJCLab), Marc Verderi (LLR)	S1 2023
Understanding basic principles of particle accelerators	Nicolas Delerue, David Longuevergne, Guillaume Martinet, Bruno Mercier, Luc Perrot	S1 2023
Beam manipulation for precision experiments	Enrique Minaya (IJCLab)	S1 2023
Flavour Physics: the CKM matrix and the CP Violation	Achille Stocchi (IJCLab)	S1 2023

## 2022-23 PHENIICS scientific lectures

### ➤ please :

help us to enrich the offer of doctoral courses of the ED PHENIICS.

➤ a huge majority of IJCLab-Orsay lecturers... while there are many talented people at IRFU Saclay too, and probably in other labs of the ED PHENIICS perimeter.

#### ➤ note:

we sometimes benefit from courses (in general "ultra" topical) taught by international experts who stay in our laboratories through various exchange programmes (e.g.: "visiting professors" etc.) example last year: Basics of thermodynamics and hydrodynamics for heavy-ion physics

## 2021-22 PHENIICS scientific lectures

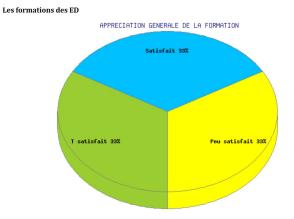

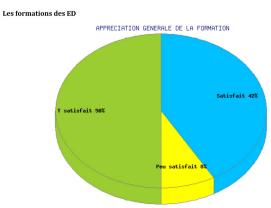

for heavy-ion physics [12 avril 2022]

ED PHENIICS - Basics of thermodynamics and hydrodynamics ED PHENIICS - Quarkonium-Production Phenomenology [27] juin 2022]

ED PHENIICS - Geant4 [16 mai 2022]

Les formations des ED APPRECIATION GENERALE DE LA FORMATION Satisfait 50% T satisfait 25%

In order for ED to validate your participation in the course, it is mandatory that you have answered a satisfaction questionnaire

## Training and complementary doctoral activities : a few loose tips

- discuss with your supervisor your participation in a summer school well in advance
- avoid procrastination: no overloaded programme in 3rd year!
- if in doubt, talk to your PHENIICS referent !!

good training and welcome to PHENIICS doctoral school!
