

université
PARIS-SACLAY

The health services for doctoral students

If you are a doctoral student working in a research unit (laboratory), you can be taken care of by your **occupational medicine referral service**, called the **medical prevention service** (occupational doctor, nurse, psychologist, dietician, addictologist).

To obtain the contact details of your occupational medicine referral service, you should first contact the **prevention assistant of your research unit or laboratory**.

Then, only if you do not get any information, you can contact the prevention medical service located in building 452.

(305 rue du Château, 91400 Orsay, service.medical452@universite-paris-saclay.fr)

PROPOSED SERVICES FOR DOCTORAL STUDENTS

Warning : Therapeutic care is not provided by the SSE or the medical service of prevention, except for emergencies, so for any request for consultations, you must contact the city professionals

In case of medical emergency, contact 18 or 15.

In case of psychological emergency, contact 15 (SAMU) or 3114 (national suicide prevention number).

Service Santé Etudiante

=
