- Theoretical and practical training
- Double diplomas course: Université Paris Saclay and University of Health Sciences
- Opportunities: academic career, PhD, work for
  public health organizations, pharmaceutical
  companies, non-governmental agencies, and
  research institutes
PROGRAM

LSH International Track Infectiology (Biology of infectious diseases) is a 2-year Master program for English-speaking students, fully hosted at the University of Health Sciences, Phnom Penh, Cambodia.

Students will need to validate 60 ECTS (European Credit Transfer System) during each of the two academic years to complete the Master program. A free online upgrading course is offered prior to selection.

GOALS

The aim of the Master’s program Infectiology is to provide a solid and broad-based foundation in prominent areas in Life Sciences and Health, as well as a high level of competences in Infectiology.

Pedagogical team includes specialists from reputable international universities and research institutes. Coupled with an intensive internship period in top level research labs (Institut Pasteur, Institut Pasteur in Cambodia, Université Paris-Saclay, University of Health Sciences, etc...), students will obtain both theoretical and practical experience in Infectiology.
