

The Quantum Sensing Group at Basel University currently has postdoctoral openings in two highly exciting projects:

- >
- > **Quantum Sensing of Condensed Matter Systems at millikelvin temperatures -**
<https://bit.ly/2MNCwoz>
- > **Spectroscopy of Color Center Spins for Quantum Sensing in extreme conditions**
- <https://bit.ly/3sfMkDo>

>

> **We are looking to fill these positions as soon as possible. If you are interested in this position, see the links above for further information and/or get in touch directly with patrick.maletinsky@unibas.ch. If you know of excellent candidates who might be interested in this opportunity I would appreciate if you could spread the news.**
