

Einstein International Postdoctoral fellowships in Berlin

I would like to draw your attention to a great opportunity for international postdoctoral researchers. Applications are open for postdoctoral positions via the Einstein Foundation, with internal deadline for the universities the 26th March 2021. These are highly competitive positions that can last up to 5 years, and are meant to incorporate top international researchers to junior groups in Berlin, while giving them the opportunity to pursue their own research.

Researchers interested in joining the Quantum Communication and Cryptography group at the Technische Universität Berlin, led by Dr. Anna Pappa can send their CV and a short research project (up to 1 page) to anna.pappa@tu-berlin.de. A PhD in a field related to Quantum Communication/Computation/Cryptography is necessary as well as an excellent track record, demonstrated by publications in high-impact peer-reviewed journals and presentations in international conferences.

Dr. Anna Pappa
Group leader 'Quantum Communication and Cryptography'
Electrical Engineering and Computer Science Department,
TU Berlin
